

OSNA NAMUR Proximity Switches have been approved by BUREAU VERITAS as per Certificate No. EPS 16 ATEX 1 047  II 2G Ex ia IIC T4 Gb for Intrinsic Safety.

These Switches can be installed in a Hazardous Area Gas Group IIC and connected through a Isolation Trip Amplifier.

For Example : OSNA OS-Ex-2G also certified as Intrinsic Safe by BUREAU VERITAS.

## CONNECTION DIAGRAMS

PVC Cable  
IP-68 Protection

Supply Voltage

8 VDC

Mounting

Current Consumption

(A) Active Face Free

$\geq 3\text{mA}$

(B) Active Face Covered

$\leq 1\text{m}$

Intrinsic Capacitance

135nF

Intrinsic Inductance

635 $\mu\text{H}$

Switching Frequency

1000Hz

Switching Hysteresis

3%

Standard Target(Ferrous)

22x22x0.5

Cable (Cross Section)

0.75mm<sup>2</sup>
